I am you 360 focus is to create a bridge of hope by providing the tools to build self-awareness for families, children and teens who have experienced or currently experiencing traumatic experiences. The primary goal of I am you 360 is for families, children and teens to feel good about themselves and not allow their past or current situation to define who they are. The empowerment bags are personalized according to ethnicity, to accommodate all hair and skin types. This will create a healthy personal care regime, improve appearance, boost self-esteem, confidence and allow our youth to focus on education.
